Categories of forms

1. Personal Information Collection

- **Registration Form**: Captures basic details like name, date of birth, contact info, and profile picture upload.
- **Profile Update Form**: Allows users to update their information, with options for uploading profile images or PDFs for identity documents.
- **Survey Form**: Gathers user preferences and feedback; can include text fields, checkboxes, and file uploads for feedback (PDF/Word documents).
- **Contact Information Form**: Simple form to collect contact details, with an option to upload supporting documents like a PDF or image ID.
- **Subscription Form**: Collects information for newsletters or services, with image upload for avatars.

2. Business and Financial Data Collection

- **Expense Report Form**: Users can enter expenses, select categories, and upload receipts (images or PDFs).
- **Invoice Submission Form**: Allows users to submit invoice details, with file upload for the invoice as PDF or Excel files.
- **Tax Form**: Collects tax-related information, allowing uploads of tax documents (PDFs or Excel).
- **Employee Performance Form**: Records employee performance metrics with options to upload supporting documents (PDF).
- **Asset Registration Form**: Users can register business assets with options to upload images, PDF reports, or Excel sheets of asset details.

3. Project and Task Management

- **Task Assignment Form**: Captures task details, assignee information, and allows attachment uploads (PDFs or images for task-related data).
- **Project Proposal Form**: Allows users to submit proposals with file upload options (Word documents, PDFs).
- **Feedback and Issue Tracking Form**: Collects project feedback with options for screenshots or PDF attachments of related documents.
- **Resource Allocation Form**: Users can log resource requirements, with Excel upload options for bulk entries.
- **Progress Update Form**: Enables users to submit updates on project milestones, with file upload options (Excel or PDF) for detailed reports.

4. Educational and Training Data Collection

- **Course Enrollment Form**: Collects student information for enrollment, with an option for ID document upload (PDF or image).
- **Assignment Submission Form**: Allows students to submit assignments with PDF or Word file upload.
- **Training Feedback Form**: Gathers feedback on training sessions, with a file upload option for detailed reports (PDF).
- **Event Registration Form**: Captures participant information for events, allowing image or PDF uploads for ID.
- **Certification Upload Form**: Enables users to upload certifications (PDFs or images) related to completed courses or trainings.
